GAP-90PX KEY FEATURES

- High-Speed Performance**
1 Achieves a paging speed of up to 90 meters per minute, ensuring enhanced productivity for high-demand operations.
- Versatile Material Compatibility**
2 Supports various materials like bags, cartons, and paper cards, with flexible paging methods such as friction or baffle types. Suitable for product widths of 130–300mm and heights of 1.2–20mm.
- Advanced Code Detection**
3 Features a built-in visual inspection system with a code-reading speed of 75m/min and missing code detection speed of 110m/min, ensuring precise quality control.
- Optional Rejection System**
4 Equipped with an optional pneumatic rejection mechanism to handle products with missing codes or errors seamlessly.

SPECIFICATIONS

Motor	200W variable frequency motor
Power Supply	220V/50Hz
Power	200W
Conveyor Belt Size	300mm width × 2170mm length, made from durable black PVC
Machine Dimensions	1500 × 390 × 770mm (L × W × H)
Adjustable Baffle	Allows adjustments of up to 50mm left/right and 15mm up/down
Suitable product width	130-300mm
Printing height Of TXI screenless printer	12.7mm
Paging speed	0-90m/min
Pageable product height	1.2-20mm
Visual detection code reading speed	75m/m, missing code detection speed: 110m/m
Optional	Rejection device (products with missing codes or cannot be read can be rejected)
